REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Lindblad teaches the use of hyaluronic acid in less than 2% w/w aqueous solution for the treatment of cartilage degeneration via intrarticular administration. Nocelli teaches the use of sodium chondroitin sulfate in a composition containing 7-10% of it for treatment of articular inflammation in general. The method of treatment of cartilage degeneration via intrarticular implantation of a composition comprising both chondroitin sulfate and hyaluronic acid in the amounts as instantly claimed is not taught or fairly suggested by the prior art of record.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Any inquiry concerning this communication should be directed to James O. Wilson,
Primary Examiner in Art Unit 1623 at 571-272-0661.
